

Clinical Doctorate Research Study

How do family carers mentally and emotionally adjust to caring for people who have a learning disability and are living with dementia?

If you are a family carer for someone who has a learning disability and has been diagnosed with dementia, then we would love to hear about your experience of being a carer.

Participants will be invited to take part in an online or telephone interview.

All information collected will be kept strictly confidential.

You will be entered into a draw to receive a shopping voucher for your participation.

Please note, if you are likely to find the sensitive nature of this study distressing, then we respectfully ask you not to participate.

You must be aged 18 or over to participate in this research study.

For more information please email: Michelle.Hughes@liverpool.ac.uk
